# More Activity at TIET

At **Thapar Institute of Engineering & Technology**, we are setting up a similar AI super computer using **NVIDIA** GPUs. We are highly inspired by how the scientists at the **University of Florida** are harnessing the power of AI super computing. Our recent visit to the **University of Florida** fortified our commitment to transforming **Thapar Institute of Engineering & Technology** to an AI empowered University!

**TIET Data Centre**  
Hosting NVIDIA DGX Servers

**THAPAR INSTITUTE OF ENGINEERING & TECHNOLOGY**  
**is now AI Empowered**  
with Thapar School of Advanced AI and Data Science  
(In technical collaboration with NVIDIA)  
a big step in India's journey towards AI leadership.

**KEY HIGHLIGHTS**

- Introduction of a new undergraduate engineering program in AI, B.E. (Artificial Intelligence & Machine Learning), focused on building deep AI skills over four years.
- AI elective courses across all programs to ensure all students are AI literate.
- Launching a Master's Program in AI, ML, and DS targeting working professionals.
- Specialized courses for professionals seeking AI training.
- Establishment of startup ecosystem in AI with 500 Jetson edge computing devices.
- All students at TIET will earn 9-12 credits as microcredentials in AI literacy.

Through our technical collaboration with NVIDIA, we offer a formidable infrastructure, currently 227 Petaflops of AI performance to be expanded to over 500 Petaflops, tailored for the most demanding AI and Deep Learning tasks.
